

CONSULATE GENERAL
OF CANADA
DETROIT
DESIGN CHALLENGE

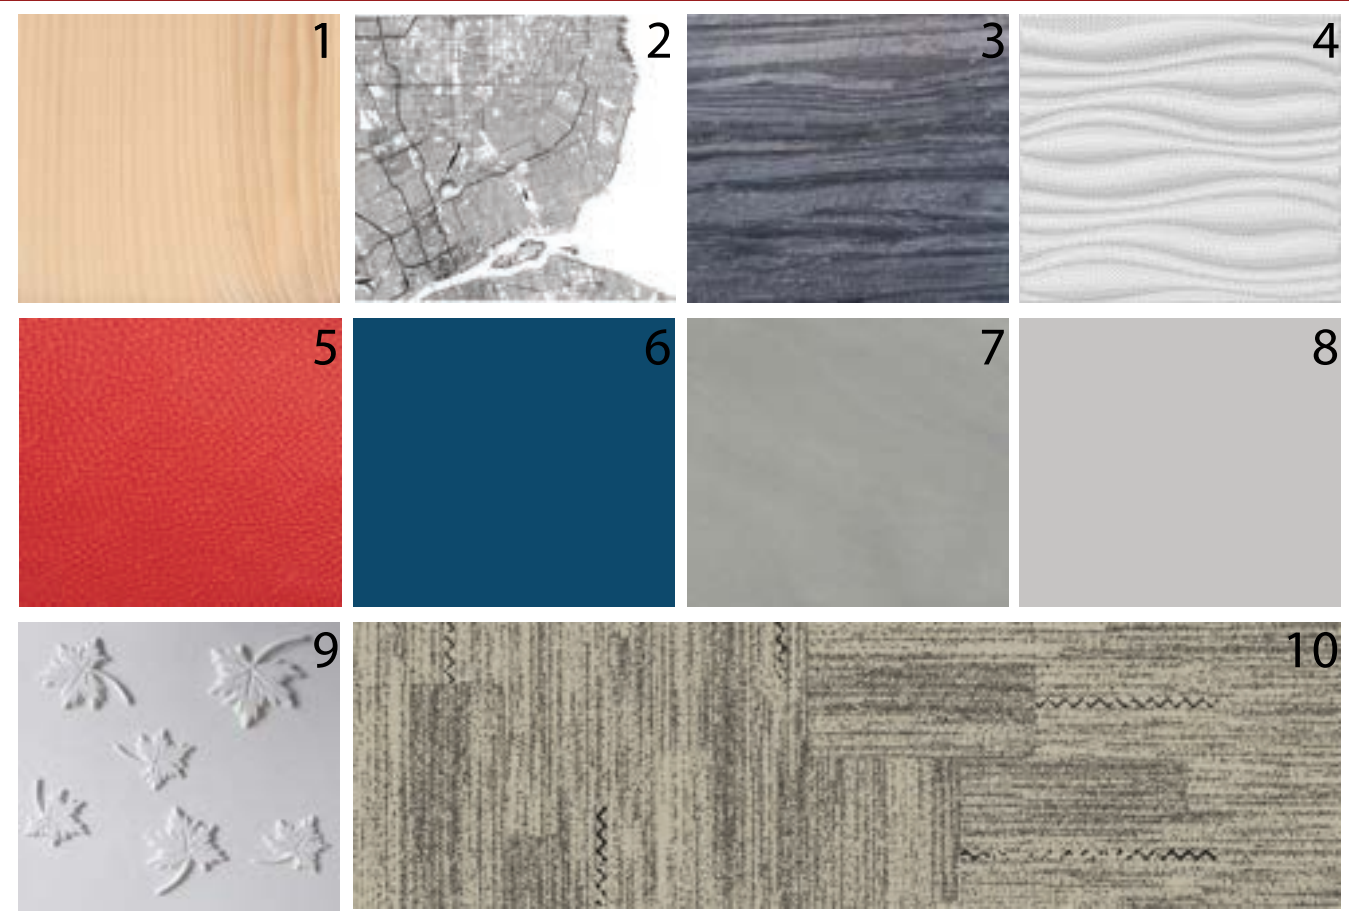

DESIGN CONCEPT

The 75th-anniversary logo and the building design symbolize the substantial connection between Canada and the United States. The logo incorporates the intertwining of the Canadian and American flags to embody our allyships and strong bonds to each other. Our connecting waters are valuable to both countries as we depend on our Great Lakes for water, recreation, transportation, power, and economic opportunities. Using water as the concept and driver of the design facilitates this connection between both countries. With one of the largest trading relationships the Gordie Howe International Bridge is one example of how Canada and the United States protect communities on both sides of the border, creating positive outcomes for the local workforce and neighborhoods. Finally, the design incorporates different environmental elements associated with each country.

ROOM KEY:

- ★ ONTARIO ROOM
- ★ BRIDGING ROOM
- ★ MICHIGAN ROOM

MATERIALS KEY:

- 1. WOOD PANEL
- 2. DETROIT WALLPAPER
